Offer of joint space research centre with Soviet Union

3682. DR. H. P SHARMA: Will the PRIME MINISTER be pleased to state

(a) whether Government have accepted a proposal for a joint space research centre with the Soviet Union; and

(b) if so, what are the details thereof and in what manner it would be integrated with our indigenous national programme upto the nineties?

THE MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY AND THE MINISTER OF STATE IN THE DEPARTMENTS OF OCEAN DEVELOPMENT, ATOMIC ENERGY, ELECTRONICS AND SPACE (SHRI K. R. NARAYAN): (a) and (b) The Soviet interest in establishing an International Space Centre in India was announced during the the visit of the General Secretary of the Central Committee of the Communist Party of the Soviet Union to India during November, 1986.

The ideals were of general nature which include facilities for training in a number of areas and also providing for launch facilities and other related space technology and application activities. Since a number of details would need to be worked out, some discussions have taken place between the officials of India and the Soviet Union

Our approach to this ideal will be based on the need for international cooperation for peaceful use of outer space consistent with our commitment to self-reliance in our national space programme.

Production and consumption of polysilicon

3683 DR H P SHARMA. Will the PRIME MINISTER be pleased to state:

(a) what is the latest position regarding country's annual production-capacity, consumption and unsold stocks of polysilicon;

(b) what is the demand projection and production-capacity of provision in the coming-years; and

(c) whether Government have received collaboration proposals from foreign producers, including the NRI, if so what are the details thereof?

THE MINISTER OF STATE IN THE MINISTRY OF SCIENCE AND TECHNOLOGY AND THE MINISTER OF STATE IN THE DEPARTMENTS OF OCEAN DEVELOPMENT, ATOMIC ENERGY, ELECTRONICS, AND SPACE (SHRI K R NARAYANAN): (a) At present only Metkem Silicon Ltd is producing polysilicon with annual installed capacity of 25 metric tonnes. Polysilicon is required to be converted into single crystal silicon wafers for use by both photovoltaic and electronic industries This installed conversion capacity in the country is less than 10 metric tonnes and all good quality indigenous silicon wafers are being consumed As of November, 1987, unsold stock of polysilicon with Metkem Silicon was about 11 metric tonnes

(b) On the basis of demand for silicon solar cells, the annual requitement of polysilicon, if converted into single crystal silicon wafers, will be between 25 and 35 tonnes till 1990. For electronic devices, the requirement of single crystal silicon wafers would correspond to polysilicon quality increasing from 5 metric tonnes to 10 metric tonnes by 1990. If export oriented proposals materialise by 1990, the requirement of polysilicon will for outstrip domestic consumption

(c) No proposal has been received by Government on foreign collaboration including Non-Resident Indians (NRIs) for production and sale of polysilicon for domestic consumption
